## Installation instructions

For detailed installation instructions for your operating system, choose one of the following.

- Windows
- Windows (from the command line)
- Linux

Full Splunk Enterprise is not available for macOS, but the trial and free versions are available.

- macOS

## **Splunk Enterprise availability has been removed for some operating systems**

As of version 7.0.0, Splunk Enterprise is no longer available for the following operating system. To install and use Splunk Enterprise on this operating system, you must use a version prior to 7.0.0. The universal forwarder is available for installation on these platforms. See the following links for universal forwarder instructions:

- Solaris

The following operating systems have not had support for Splunk Enterprise since version 6.3.0. Universal forwarder instructions are available:

- FreeBSD
- AIX
- HP-UX
